We've heard positive reports from schools competing in the past. The event really motivates students to succeed in language learning, to understand that languages are valuable in their future career and that they can have fun learning!

Overall, it's a great, fun school event for all levels of ability. We recommend you involve your students and get the most out of this opportunity. Top students and schools are frequently recognised in the TV news, radio and even the Australian Minister of Education Hon Peter Garrett made a video to congratulate the top 3 schools from 2011.
